

### Values

- Gracious Professionalism™
- Coopertition™

## **FIRST Season Plan**

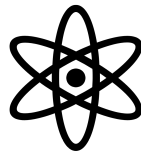

- Use project management to stay on schedule to build robot in 5 weeks
- Practice for a few days before bag and tag
- Students and Adults work together on defined sub-teams (engineering and non-engineering)
- Have enough money for all events, especially if we win and move on to the World Championship
- Share knowledge with LamBots prior to attending Alamo Regional

### Methods for continued success

- Exhibit gracious professionalism
- Have fun
- Diversity in members
- Mentored learning
- Hands-on learning
- Student leadership

## **Results to Date**

- Able to practice driving for 3 days
- Sub-team process worked well
- Sponsors will pay registration fees for all events
- All students able to participate
- Information shared with LamBots

**ADAMBOTS**  
**Team 245**

## **Actions Needed**

- Conduct debrief meeting after Alamo to prepare for Michigan Districts
- Schedule trip plans for next two District events
- Work with LamBots on scouting and selection process at Alamo

- Revise Plan for Next Year
- Continue after FIRST events
- Continue community outreach
- Off-season fundraising
- OCCRA in fall
