# Main Menu

**1. Team Mission**

**2. Team Structure**

**3. Engineering**

**4. Business**

**5. About Us**

**6. Future Plans**

All of the buttons on the left will link to the related section, allowing the user to instantly access whatever slide they want to view without having to scroll through the entire presentation. For example, do you want to see our Future Plans? Easy! Just click it and you're there with no extra hassle.

Every slide has a “hidden” button that takes the user to a special slide containing quick links to specific slides that have visual aids for presenting to a judge or interested party.

The “hidden” button should have the same fill color as your background with no text or outline, so that a normal user will not accidentally access it.
