

# Robotics Teams Updates

Here at thyssenkrupp System Engineering, we are proud to sponsor two local robotics teams. Please see below for some updates on both!

## AdamBots Team 245

Recently had their match at Woodhaven, where they led their alliance to victory as captains. They also took home the Judges Award. We will see them next at the Michigan State Championships April 3-5th! Please take a moment to review their recent video from the Woodhaven match. Contact Gary Sochanski for more information.
