Rochester Adams High School
3200 W Tienken Rd., Rochester Hills, MI 48306

Dear AdamBots FRC & OCCRA Team #245,

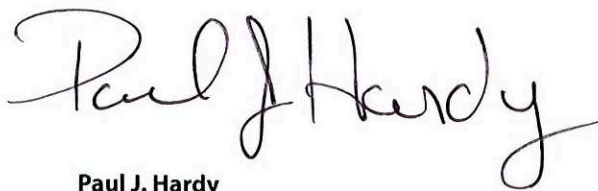

Thank you so much for stepping in at the last minute to help make our June Cub Summer Adventure Day on Saturday, June 14, 2025, such a fantastic experience! Your team's energy, kindness, and willingness to share your amazing STEM Robotics presentation made a big impression on everyone who attended.

Because of you, **17 Cub Scouts, 15 parents, and 11 staff members** got the chance to explore and interact with some really cool robots—and you could see the excitement on their faces. It's moments like those that help kids discover new interests and build confidence in learning something new.

We truly appreciate your flexibility and generosity. What you brought to the day wasn't just technology, it was inspiration, fun, and a hands-on look at what STEM can be all about. You helped us deliver a high-quality program that our families will be talking about for a long time.

Thank you again for being part of this special day. We're grateful for your support and hope we'll have the chance to partner again in the future.

Yours in Scouting,

Paul J. Hardy
